Winter Session: Let's Build It

This tool allows students in pairs to explore programming through play. With the SPRK+ we can learn the fundamentals of coding; events, if statements, loops and more. The best part is that the kids can see how their code worked immediately enabling them to evaluate what they did, what they thought would happen and what actually happened.

Wednesdays:

Chess Scholars:

Develop your child's intellect through the fun game of chess! Current research has shown a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Also, chess has been proven to enhance motivation, concentration, focus, social skills, and creativity. No previous knowledge of chess is necessary. Each class will consist of a fun, interactive teaching period and guided practice time. Both new and returning participants are welcome and will get to the next level under the guidance of an experienced Chess Scholars coach. There will also be a chess competition with prizes towards the end of the session! Each child will receive a participation medal and a chess keychain.
